

GAF FILTER

GA SERIES FILTER

Product feature

- Unique diversion structure spins the air flowing through to effectively separate the liquid from the air and reliably filter the solid grain
- Low pressure loss, high efficiency in separating water and large drain bowl capacity
- Filtering grade includes 40 µm and 5 µm (optional)
- Three drain types are available: semi-auto drain and automatic drain
- Three material of bowl are available: PC, Nylon and Metal
- The bracket can be selected for installation
